**FLAT WIRE:** Maintain the intended taste of your food with our most aggressive line of Flat Wire grill brushes. Having a clean grill that is free of grease or leftover food particles always results in improved taste. A clean grill also cuts down on excess smoke. Chisel-like flat wire steel allows for quick and easy removal of heavy carbon deposits, rust, and burned-on food build-up. Made in the USA.

**STAINLESS STEEL:** Maintaining the grates of your grill prevents foods from sticking and allows food to be presented that both looks good and tastes great. Our line of stainless steel round wire grill brushes makes for easy removal of finer residue typically associated with fish and chicken. This stainless steel grill brush has stiff bristles that not only clean grill grates better, but also are less likely to bend or break. Made in the USA.

**CARBON STEEL:** Carbon steel wire grill brushes is the perfect choice when looking for the most economical option for tackling tough grill cleaning jobs. Carbon steel round wire is flexible and recommended for use on wire grates. Made in the USA.

**BRASS:** This line of grill and oven brushes features high temperature-resistant brass. Brass bristles are soft enough to not damage grill grates, yet are abrasive enough to address baked-on residue found in cracks and crevices. Perfect for use on porcelain, cast iron cooking grates as well as stone ovens. Brass is the most flexible and softest of the metals offered. Made in the USA.
