[Non-Contact Infrared Human Forehead Thermometer](#)

The simple-to-operate Non-Contact Infrared Thermometer is designed for measuring body temperature, specifically for use on the forehead area. Requiring no skin contact, the thermometer works by collecting heat radiation emitting from the forehead. FDA, CE and ISO 13485 Certified.

[Sani Station Hard Surface Cleaning Kit](#)

Protect your customers from the hidden world of bacteria and the biofilm colonies that keep it growing. The kit includes everything you need to effectively kill E. coli, salmonella, listeria, staph aureus and other bacteria.

Checkout Shields

Our easy-to-install Checkout Shield ensures the protection of your employees and customers by separating them from sneezes or coughs during cashier transactions. The durable, professional look of the shield lets customers know that their safety is your top priority.

Contour Reusable Face Masks

Decrease your chances of potential COVID-19 contraction with Contour Reusable Face Masks. Constructed of four-way stretch Contour fabric, this washable mask offers an ergonomic design that fits around the eyes and the nose bridge for a comfortable fit.

Germ Guards

With the choice of both elastic and polypropylene headbands, these guards offer wide PETG shields that cover the eye, nose and mouth area to help protect the face from germs from sneezes or coughs.

Rely® Hybrid Electronic Touchless Soap & Sanitizer Dispensers

Encourage thorough employee and customer hand washing techniques with hybrid soap dispensers. The touchless, universal machines portion out half and full doses of hand sanitizer, foam soap and lotion.

Ramekins

Replace unsanitary condiment bottles on the table with reusable ramekins on the plate.

Table Linens

Restaurants and hotel dining rooms re-open with a visible nod to patron safety with cutlery wrapped in napkins and tables draped with reusable linens.

Cleaning & Sanitizing

Touchless Paper Towel Dispensers

Did you know high-heat air dryers encourage bacterial growth in the air, whereas paper towels remove bacteria with friction? Smart Essence™ towel dispensers provide a more sanitary hand cleaning experience.

Sani Station

Quickly and thoroughly clean and sanitize hard surfaces and utensils between uses. Minimize the risk of cross-contamination and provide employees and customers peace of mind with access to thoroughly cleaned and sanitized surfaces.

Kleen-Pail® Pro

Properly sanitize and disinfect surfaces commonly used by both customers and staff. Kleen-Pail Pro helps keep your sanitizing solution accessible and clean.

Nitrile Gloves

Reduce the risk of spreading germs by protecting employees' hands with quality gloves. These flexible gloves are made for serious scrubbing and protect arms all the way up to the elbows.

Saf-Check®

Ensure sanitizing solution is at the proper levels to safely disinfect surfaces by testing frequently for both quaternary and chlorine

Microfiber Dry & Wet Mops

Soft microfiber dry and wet mops pick up more microbes from surfaces than traditional cotton mops. They can be easily laundered for constant sanitization on a variety of smooth

solutions.

surfaces.

Multi-Purpose Hand Scrubs

As the need for cleaning and sanitizing increases, hand scrub brushes ensure your hard surfaces are as clean as possible so you can prep, cook and package in specified locations. Chemical-resistant bristles stand up to the harsh chemicals needed for deep cleaning.

Floor Scrubs

Like hand scrub brushes, floor scrub brushes are also great for cleaning and sanitizing smooth, non-porous floor surfaces. Chemical-resistant bristles stand up to the harsh chemicals needed for deep cleaning.

Meal Serving & Delivery

Meals on Command II

An increase in the need for patient care is raising the demand for hot and cold meal delivery in hospitals and care centers. Meals on Command II can be used as a drop-off unit and maintains hot and cold temperatures anywhere on campus by plugging into a regular 120V/20amp outlet.

Glasteel™ Non-Skid Trays

Glasteel Non-Skid Trays are dishwasher safe and provide a sanitary surface for patient meal delivery. The non-skid surface keeps wares securely in place. These trays also provide healthcare workers a sanitary, safe way of delivering dirty dishes to kitchen washing stations.

[Disposable High Heat Plates & Domes](#)

As the rise for medical care increases, the need for patient meal delivery also increases. High heat disposable plates and domes are specially formulated for high-heat applications and designed for superior strength and durability. These single-use plates and domes help prevent the spread of possible contamination since meals are covered before delivery, and dishes are disposable.

[Cutlery Caddies](#)

Provide to-go and room service meals with sanitary cutlery and included napkins. The paper caddies are closed with a flap to keep away environmental, airborne contaminants. The caddies can be used with recyclable, disposable cutlery to keep both employees and patrons safe.

[Insulated Food & Pizza Delivery](#)

[Carriers](#)

If your area has suspended dine-in restaurant operations, San Jamar delivery bags have you covered for hot and fresh food delivery. The bags offer extended heat retention with 1" high-density foam. They're available in a variety of sizes for flexible arrangement of takeout containers.

[Dinex Disposable Lids](#)

Help prevent airborne contaminants from reaching food and drinks with Dinex disposable lids. Each style of lid is sized to fit tumblers, bowls and small plates for single-use purposes only. Use the lids for a variety of options like healthcare patient meal delivery and dine-out or curbside meals to go.
